Re: New Developmental Assessment Form

U.S. Soccer is pleased to introduce a newly updated Developmental Assessment Form now available for general use. The new form was produced with the input of several State Referee Administrators and State Directors of Assessment and was tested widely prior to release. This form replaces any existing development and guidance forms currently in use.

The new development and guidance form is geared toward providing feedback to match officials (both referees and assistant referees) participating in tournament games or in situations where full, formal assessments are not practical. It concentrates on the new assessment “focus criteria” released in 2009 and is formatted to provide clear, attentive feedback. The back side of the form contains a full list of the “focus criteria” for easy reference by the assessor and the match official.

You will find a copy of both sides of the form attached. Packets of forms can be ordered from our online catalog (<http://friinc.onet.net/catalog/login3.html>).

Please feel free to contact our office if you have any questions. Thank you.
